### U3 Tunnel

The Potsdamer Platz U3 metro station is located in the heart of town. Taking advantage of a building window that may never have presented itself again, sections of the U3 tunnel line and station were constructed in preparation for upcoming urban developments. An impressive result in one of the city's most important areas, the excellent structure and layout of the 'floating' U3 station classifies it as an architectural masterpiece. Covering 50 hectares, Potsdamer Platz is located in the centre of Berlin and is now considered a district. After the building of the Berlin Wall, Potsdamer Platz was a part of the 'death zone' between East and West Berlin. After the Berlin Wall fell, the area became the biggest construction site in Europe – transforming 'no man's land' into a shining example of peace and progress.
